**Abstract**—A short summary (max 300 characters) of the work can go here. A short summary of the work can go here. A short summary of the work can go here. A short summary of the work can go here. A short summary of the work can go here. A short summary of the work can go here.

## I. INTRODUCTION AND BACKGROUND

This document is a one-page template derived from the standard IEEE style template for papers and transactions (<http://www.ieee.org/web/publications/authors/transjnl/index.html>).

This template should be used for paper submissions to the National Symposium on Technology and Methodology, for Security and Crisis Management, TAMSEC 2017, November 28–29, 2017 Kistamässan, Sweden. Please refer to the conference website for details, including registration and final paper submission information, <http://www.security-link.se/tamsec/>

**For the abstract submission please keep your paper to a page limit of one, and a size limit of 250 kB. The paper should be submitted as a pdf document.**

Please, do not number your pages.

[illegible]

## II. RESULTS

[illegible][illegible]

Fig. 1. Figure example.

describes the results. This section describes the results. This section describes the results. This section describes the results.

*Figures:* Format and save your graphic images using a suitable graphics processing program, preferably as vector graphics. Include the figure in a figure environment, as in the case of Figure 1.
